EXPERIENCE

- 2024/02 - Now. Senior Programmer at Stickylock. Before the release of Histera, made with Unity, I helped with gameplay, store backend, UI, bug fixing and optimization. Currently working on a new unannounced project, developed with Unreal Engine 5.
- 2021/09 - 2023/12. Programmer at Xaloc Studios. I did the Stadia port of L.O.L. Surprise! B.B.s Born To Travel, among other unannounced projects. In one of them, a beat 'em up, as a Code Lead, it lasted 10 months and the code team ranged from 2 to 3. I was in charge of the code architecture, AI, tools, online multiplayer and gameplay.
- 2021/05 - 2021/09. Software Engineer at EDAG Group.
- 2019/03 - 2020/08. Unity Junior VR/AR Programmer at Presentys, DNT Framework. I developed applications for other companies for Android, iPhone and a wide variety of virtual reality devices. Most of these applications were for multiple users, whether sharing physical space or not.
- Bachelor's Thesis. Design and prototyping of a video game for Virtual Reality. https://github.com/AleixBV/BorrellA_TFG.
- Curricular projects during the bachelor's degree in Video Game Design and Development:
 - R-Type tribute. In a group of 4 students. https://github.com/AleixBV/Grup_5.
 - Starcraft: Last Hope. In a group of 8 students. <http://crandino.github.io/StarCraft/>.
 - Ri-Karts. Project made with our own engine and the whole class, 23 students. <https://citmproject3.github.io/Project3/>.
