Taviano
73057 (LE)
Italia

Skills **Key skills**
C/C++/C#
2D/3D mathematics and geometry
Multiplayer (PlayFab, XboxLive (PC & XSX))
Network (TCP/UDP/UDT)
Multithreading
Optimisation and debug
Architecture and tools
Multiplatform development (PC, PS4 and various Xbox models)
UI design and implementation

Other experience

Custom engines/Unity/Unreal
Physics simulation (custom and PhysX)
Compute on GPGPU (HLSL and GLSL)
Jira/Visual Studio/Perforce, etc., and some Git and CLion.
Some graphics (OpenGL and DirectX, but not Vulkan/DX12)

Recent roles **Freelance Principal Engineer, Sumo Digital Ltd.**

2019-2024

General and network programming on two unannounced AAA first person shooters.

The first was in UE5: designing and building a, 'world simulator,' as in, to make the background to the game rich and convincing: traffic, people doing believably people things, animals doing animal things.

The other was in UE3: using PlayFab for crossplay between Xbox, PS5 and Steam.

Freelance Engineer, ObjectBox

2018-2019

General engineering, algorithms and optimisation for the ObjectBox object-oriented database. ObjectBox was open source: there was a very high standard for code clarity and documentation.

Principal Engineer, Sumo Digital

2012-2018

Starlight (in-house engine), Forza Horizon 4, Crackdown 3, Sackboy: A Big Adventure, Little Big Planet 3

For Forza: memory management optimisation (saving around 1Gb of memory) and windscreen wipers!

For Sackboy: A Big Adventure: R&D for the prototype using the Unity Engine. A lot of custom inspectors for the design team.

Senior/Lead/Lead-Tools programmer, Team 17 Ltd.

2002-2012

Worms: Revolution, Worms: Battle Islands, Worms: A Space Oddity, Worms; Open Warfare 2, Worms: Open Warfare, Worms 4 Mayhem, Worms 3D: Special Edition, Worms 3D and others.

Prior roles

Various programming roles at Burneth, Warthog, and Red Lemon Studios.

Education

1997: Post-graduate Diploma in Informatics, Glasgow Caledonian University

1996: Advanced Diploma in Software Engineering, Stowe College, Glasgow

1995: Higher National Diploma in Software Engineering, Stowe College, Glasgow
