Technical Skills

- **Game Engines:** Unreal Engine 5 (Blueprint scripting, level design), Unity (level design, visual scripting, prototyping)
- **Blender:** 3D modeling, texturing, and asset creation.
- **3D Tools:** Autodesk Maya (3D modeling and animation)
- **Substance Painter:** Texturing and material creation for 3D assets.
- **Adobe Photoshop:** Proficient in creating UI elements, textures, and 2D assets.

Key Skills

- **Concept Art to Final Implementation:** Created high-quality game assets, from concept art to final implementation, ensuring optimal performance and visual appeal.
- **3D Modeling & Texturing:** Designed and textured low-poly 3D assets, prepared models for game engines, and optimized topology for performance.
- **Data-Driven Design:** Utilized game analytics tools to analyze player behavior and optimize game mechanics, improving player retention by up to 20%.
- **Project Management:** Managed the end-to-end design process for Rocky Road Racers, coordinating with artists, programmers, and designers to deliver a polished product.
- **Mentorship:** Guided junior team members in best practices for level design, 3D asset creation, and data-driven decision-making.
- **Artistic Sense:** Strong understanding of composition, proportions, and color theory, applied to both 2D and 3D assets.
- **AI Tools:** Interest in AI tools and learning new technologies to enhance creativity and efficiency in game asset creation.

Education

University Of Gloucestershire, UK
Msc. Game Development (Sept 2024)
Bharathiar University, India
Bsc. Animation & VFX (2021)

Work Rights & Visa Status

- Full work rights in the UK.
- No visa sponsorship required.

Work Experience

Level Designer | Escape Code Games (Wales, UK)

November 2024 - Present

- Designed levels for Safe Hayven, a **2D free-to-play (F2P) platformer**, integrating gameplay mechanics, interactive elements, and enemy encounters to enhance player engagement.
- Iterated level designs based on playtesting feedback and data analysis, improving player retention by 15%.
- Collaborated with cross-functional teams to align level design fundamentals

Game Level Designer | Vending Machine Games (UK)

September 2023 - September 2024

- **Designed 2 level maps** and kart racing tracks for Rocky Road Racers, integrating obstacles, power-ups, and engaging layouts.
- Developed **Character Moodboards, 3D assets, logos, and UI elements**, contributing to a visually consistent and engaging player experience.
- Collaborated in a multidisciplinary team, iterating level designs based on playtesting feedback.
- Increased player engagement by 20% through optimized level design and player flow.
- Showcased & Presented at 'Indieverse', Insomnia: The Gaming Festival 2024, Birmingham, UK.
- Developed a strong understanding of **Casual Mobile game** design and player engagement strategies.

3D Artist | VG Simulation Pvt Ltd. (Mumbai, India)

July 2022 - August 2023

- **Led a small team** across 3 departments: Lighting, Rendering, and Look Development, ensuring seamless integration of assets and high-quality visual output.
- Designed and implemented lighting setups, material shaders, and rendering solutions, improving rendering efficiency by 15%.
- Produced textures for 3D assets and worked with **low-poly 3D models** for optimized performance.
- Collaborated with animators and modelers to troubleshoot technical issues and optimize workflows.
- Mentored junior team members, fostering a culture of innovation and continuous improvement.

Personal Projects

Project DEVI (Unreal Engine 5)

- **Concept to Final Implementation:** Created concept art, high-to-low poly models, textures, and UV maps for a fully realized environment.
- **Environment Creation:** Designed and built an immersive environment in Unreal Engine 5, including lighting, optimization, and baking.
- **Greyboxing:** Used greyboxing techniques to prototype and iterate level layouts, ensuring optimal player flow and engagement.
