Personal Statement

My name is Paulo Petrone, a 3D Visual Artist holding a Bachelor in Fine Art (Hons) from Loughborough University, showcasing my passion for creating compelling visual art whilst maintaining a high attention to detail, and a commitment to specialisation. I have effectively assumed leadership roles in collaborative settings, having participated in numerous group projects. My greatest strength is that I am a visual and creative thinker, who can contribute pioneering and effective solutions when working on projects. My innovative thinking has empowered me to drive teams toward imaginative and inventive solutions. I am also hardworking and results-driven, demonstrating sustained focus by consistently meeting deadlines.

Education

Higher education

Bachelor in Fine Art (Hons), Loughborough University	Degree classification	2020 – 2023
	2:1	

Secondary education

Finchley Catholic High School, Woodside Ln London N12 8TA

3 A-Levels	Grade	2018 - 2020
Art	A	
Product Design	C	
English Language	C	

Additional Qualifications

LAMDA Level 3 Certificate in Communication (grade 8)	Distinction
Engineering (BTEC/1&2)	Merit (level 2)
Financial Studies (CFS)	C

		12 GCSEs		2015 - 2018
Subject	Grade	Subject	Grade	
Design and Technology	C	Spoken Language	Distinction	
ICT	C	Chemistry	5	
Religious studies	4	Biology	6	
Mathematics	5	Physics	6	
English language	5	Spanish	8	
English literature	5	Art	9	

Key skills

Digital production

- Experience in Blender (2 years) 3D pipeline for texturing, PBR baking, hard-surface modelling, animation, rendering, UV mapping (packing/alignment – UV Packmaster3), lighting, simulation and animated shaders.
- Procedural modelling and texturing with Blender shader/shading and geometry nodes (abstract, stylised and realistic 3D environments).
- Scene building, post-processing, animation and rendering experience in Unreal Engine, 3D asset/ game asset production.

- High end image and video retouching and additional post-production skills in Adobe Photoshop/Affinity Photo/DaVinci Resolve/Adobe After Effects
- Continual portfolio development since July 2023; graduation.
- Essential coding proficiency (Python, JavaScript, HTML and CSS) – used to build my own website. See my portfolio here: <https://www.quantumfractals.art/Pages/Portfolio.html>

Team-working

- Part of the 2015 winning team in an international design competition called Design Ventura, involving 10,000 students. https://kin-design.com/commissioned-work/arts_culture/dazzle-racer-design-museum/
- Designed the successful prototype, a cylindrical elastic band powered toy made from an inexpensive cardboard tube, raising £1,570 for Great Ormond Street Hospital Charity.

Communication

- Extra-curricular classes in LAMDA(London Academy of Music and Dramatic Art), taken throughout my secondary education. Modules in: acting, verse and prose, reading for performance and speaking in public.

Leadership

- National Saturday Club at Westminster University for STEM Robotics, taking place every weekend for 12 months. Collaborating to build a robot to be showcased at Somerset House, London. 2016.
- Took on leadership and management roles, assigning tasks during each phase of the robot's creation, unifying ideas and ensuring direction.

Attention to detail

- Executed the final project for my Fine Art degree exhibition at Loughborough University, creating a large-scale painting (210cm x 120cm). My final piece; a rendition of a highly complex and intricate 3D fractal.
- Developed my observation skills; the ability to recognise and adjust proportions, hue, tonal value, luminosity, and compositionally recognise key areas of focus (to enhance details in those areas).
- Art and Design Dissertation on Colour Theory; advanced understanding (of this and other formalistic elements).

Work

Upwork – Freelance promotional 3D Environment Animation for film studio | Remote | 05/01/2025 - 06/02/2025

- Created a 3D environment animation for a film studio as a one-month freelance project. Involving: 3D character modelling, texturing, rigging, animation, editing, colour correction and sound design.
- Developed my sustained focus, resilience, interpersonal skills and adaptability with consistent client communication.
- Ability to concept/plan shots in advance to meet the project deadline, self-directed schedule within project timeline.

Other

Fencing, weight lifting, athletics, painting showcased at the Royal Academy, reading, music (recorder and clarinet), drawing, woodworking, social media. Languages: English, Spanish, Indonesian.
