PROFESSIONAL EXPERIENCE

● Pendulo Studios

June 2021 – Present

Key responsibilities:

- Animation Creation and Integration: Designed, created, and implemented in-game animations, including character and environmental movements, combat sequences, and cinematic animations. Produced cinematics using keyframing and mocap,
- collaborating closely with the creative team to ensure cohesive visual storytelling. Worked with design, programming, and audio teams to integrate and optimize animations within the game
- engine. Managed the animation pipeline, improving workflows and contributing to best practices.
-

● Gato Salvaje

March 2020 – June 2021

Key responsibilities:

- Designed and executed complex cinematics using keyframing techniques.
- Created character animations, including walk and run cycles and interactive animations.
- Developed animations for interactive elements like the character selection screen.

● UIB Ladat (University of the Balearic Islands)

January 2009 – March 2020

Key responsibilities:

- Oversaw animation production for short films, leading teams and managing deadlines and quality.
- Taught and mentored students in 3D animation, from keyframing techniques to game engine integration.
- Managed multiple animation projects, ensuring smooth communication between teams.

TECHNICAL SKILLS

- Software: Blender, Maya, Unity, Unreal Engine
- Skills: Keyframing, motion capture (mocap), 3D modeling, rigging, animation integration into game engines, pre-production and post-production of animation.
