Experience

Senior Game Designer - Zapper Games, 2023-2024

- **Jump-started production on a new project by helping pre-production prior to studio-wide kickoff.**
- Created design direction, initial ideation, and prototyping in Unreal Engine 5 for *Takenoko* adaptation.
- Designed and implemented combat encounters, boss enemies for unannounced open world action-adventure game.
- Implemented companion character AI and enemy behaviors with UE5 Behavior Trees
- Implemented player and enemy abilities using UE5 Gameplay Ability System.

Senior Game Designer - Red Storm Entertainment, 2018-2023

- **Designed gameplay features, mission content and 3Cs overhaul for *Tom Clancy's The Division: Heartland*.**
- Designed seasonal events, leaderboards, and Dark Zone features for *The Division 2*.
- Implemented and iterated on content in-engine using proprietary tools and visual scripting.
- Implemented interactive cinematic sequences for *Assassin's Creed Nexus VR* using visual scripting and custom tools in Unity.
- Created false gameplay footage and cinematics in Unity for Ubisoft's *Mere Mortals* television series.

Founder, Art Lead - Team Ok LLC, 2015-2018

- **Ensured aesthetic cohesion, identity, and readability in support of unique dual-tone design of the *Chambara* project.**
- Created 3D assets and animations for *Chambara* prototype.
- Collaborated with leadership to develop initial core design for the game.

Intern - Yacht Club Games, 2016

- **Contributed to early stages of development for *Specter of Torment*.**
- Rendered backdrop art that fit the pixelated style of the project.
- Prototyped side scrolling stage using pre-existing character and tile set.
- Designed layout for a sound test menu.
