SUMMARY

Designer with 5 years of experience in 3D modeling, specializing in asset creation with Blender. I have excellent problem-solving skills and effective communication, which have helped me deliver up to 60 projects on schedule, resulting in nearly six million units sold. My creativity, flexibility, and quick learning abilities have allowed me to excel in fast-paced environments.

OBJECTIVE / GOAL

I am transitioning careers into the gaming industry and seeking a company that allows me to grow professionally, learn new skills, and share abilities with my colleagues. I want to join a diverse team that values creativity and offers opportunities for personal development.

SKILLS

- 3d modeling, sculpting;
- Blender, Zbrush, Substance Painter, Unity & Unreal Engine;
- Stylized assets/ textures and modular asset/prop creation;
- Good understanding of 3D art pipeline, composition & lighting techniques;
- Knowledge of PBR materials, UV mapping and bake;
- Solid understanding of art and design fundamentals;
- Teamwork, communication, strong collaboration skills;
- Ability to receive and give feedback;
- Adaptability, autonomy, flexibility & problem-solving;

LANGUAGES

- English (fluent)
- Spanish (Intermediate)
- Portuguese (native)

WORK EXPERIENCE

July 2024 - Current **Collab**

3D Environment Artist

Kaardik - PC - Tropical Tempo Games - Remote

I was invited to join a team of indie game developers as a 3D Environment Artist on a collaborative project due to my skills in environment creation, composition, and a keen eye for detail.

- 3D modeling with Blender & Zbrush
- Focus heavily on stylized environments, props and foliage
- Used Unity for set dressing and environment design.
- Creating textures with Substance Designer & Painter
- Responsible for every step of the production pipeline from initial sculpt to final game-ready.
- Worked remotely with autonomy

January 2024 - June 2024

3D Artist

Collab - Remote

A collaborative project that focuses on creating dioramas for 3D printing. My role includes designing and 3D modeling assets and environments for dioramas and miniatures.

- 3D modeling with Blender and Zbrush
- Rendering images using Marmoset Toolbag

February 2022 – August 2022

Industrial Designer

Agência K2 - Contract - Remote

Excellent 3D modeling skills, transforming concepts into 3D models and constantly communicating with my team to solve any problem. The new line of products I've worked on sold more than 430 thousand units.

- 3D Modeling and rendering
- Participated in reviews and meetings of new projects

February 2021 – October 2022
Agencia K2 - Contract - Remote

Industrial Designer

Focused on 3D modeling skills, transformed 2D concepts into 3D models. I maintained regular communication with my colleagues and superior, enabling me to work effectively, receive valuable feedback, and deliver my work on time. As a result, the new products have generated almost R\$3 million for the company, and 270,000 units sold.

- 3D modeling and rendering
- Strong communication and great attention to detail

September 2018 – July 2019
Agência K2 - Contract - Remote

Industrial Designer

After completing my internship, I was asked to join the team as a freelancer due to my efficient 3D modeling skills, creativity, problem-solving skills, teamwork, and the quality of my work. The products developed during this period generated up to R\$ 15 million in revenue for the company, with 2 million units sold.

March 2017 – August 2018
Agencia K2

Industrial Design Intern

Created 3D models, renders, materials, and textures. Through problem-solving, creativity and proactivity, I helped my team develop a best-selling product that sold almost 250 thousand units.

- 3D modeling and rendering
- Collaborated with the team in the product development phase

EDUCATION

- **Bachelor**

Industrial / Product Design – March 2012 to July 2018
Universidade Federal do Rio Grande do Sul – Brazil

Fine Arts Visiting Student – September 2013 to April 2014
York University – Canada
Sandwich program

TRAINING & COURSES

- **Caio Cesar Sculpts - Zbrush**

February 2025 – Caio Cesar – Online

- **Creating a Medieval Town Environment – Using UE5 & Blender**

July 2024 – Emiel Slegers – Online

- **EOQ - Professional Development**

May 2023 – Rachel Alvarez – Online

- **Blender Environment Artist: Create 3D worlds**

June 2022 – GameDev.tv Team, Rick Davidson, Grant Abbitt – Online

AWARDS

- **Prêmio Destaque TCC**

Best Product/Industrial Design Capstone Project UFRGS 2018/1

- **Science Without Borders**

The Science Without Borders Program was a one-year program for Brazilian students to study abroad.
2013 - 2014
