SUMMARY

Creative Sound Designer with 6+ years of experience crafting audio for video games, film, and animations. Enthusiastic about creating, recording and design custom high quality sounds. Adept at collaborating with multidisciplinary teams, managing sound production pipelines. Quick to learn and adapt to new tools and workflows. Self-motivated, proactive problem-solver with a collaborative, team-oriented mindset. Strong expertise in remote work and collaborating with teams around the world.

EXPERIENCE

Sound Designer | The Audio Hive | April 2020 - September 2024

- Designed and implemented high-quality audio assets across various media, including video games, films and podcasts.
- Oversaw audio post-production tasks such as mixing, editing, recording and audio implementation.
- Collaborated with producers, programmers, and animators to deliver immersive soundscapes for an authentic and fitting sound experience.
- Managed voice casting, project planning, and resource scheduling for multiple projects.
- Mentored junior team members to support their development.

Senior Sound Designer | SunSpear Games - Immortal: Gates of Pyre | November 2023 - August 2024

- Designed and supervised over 5000+ audio assets, including SFX, UI, ambience, and voice over.
- Oversaw voice over casting and design for over 30+ characters.
- Optimized audio workflows to enhance efficiency and maximize performance.
- Guided the audio team in alignment with the vision set by the Audio Director and Creative Team.

Sound Design Collaborator | CI Games - Lords Of The Fallen | May 2023 - September 2023

- Delivered 24+ cinematic soundscapes, focusing on immersive sound design and foley.
- Recorded foley for various elements, including heavy armor, gore, blood, monsters, and spells.
- Designed environmental and ambient soundscapes to match the tone and atmosphere of each cinematic.

Sound Design Collaborator | Gunfire Games - Remnant II | October 2022 - December 2022

- Designed 600+ creature vocalizations and foley effects exclusively using custom field recordings.
- Performed extensive foley recording for creatures, utilizing props, vocal performances, and creative sound sources.
- Planned and managed the production of audio assets, including organizing Foley recording sessions, overseeing pre-production planning, and sourcing the appropriate Foley props.

Sound Designer | Sunwolf Entertainment - Imp Of The Sun | August 2020 - June 2021

- Developed and organized a planning structure to ensure the audio department's deadlines and key milestones were met
- Designed audio assets, including ambience, UI sounds, character SFX and vocalizations.
- Designed and edited audio for cinematics, trailers and marketing materials.
- Implemented audio assets using Wwise and Unreal Engine.
