Personal profile

I am a dependable, flexible 3D artist with excellent time management and communication skills. I have gained experience of the working environment from prior employment and am enthusiastic to learn from and undertake new challenges and endeavours to excel in any activities. I am currently seeking a new and exciting position where I will be able to utilise and build upon my current skill set.

NDA Artwork from two unannounced Playtonic Games projects as well as Yooka Replaylee are available upon request.

Work experience

2021 – 2025 – 3D Artist – Playtonic Games

- During this role, I worked on four unique vertical slices as well as partaking in the entire development lifecycle of Yooka Replaylee.
- The vertical slices I worked on each had varied art and gameplay styles, ranging from using Zbrush for high-definition, sculpted styles, to creating simple models and textures for a cleaner look.
- By working on Yooka Replaylee, I experienced the full game development pipeline; from testing different model and texture styles to creating the final elevated assets, all the way to refining the game by troubleshooting bugs to ensure the project could reach its full potential.
- In charge of all art aspects of the new intro cave from Yooka Replaylee, Creating and placing the gameplay and set dressing art pieces.

2019 – 2020 – Evening Supervisor – Solent University

- I took on an evening supervisor role at my university that involved staying on campus from 3 till 10PM up to five days a week, sometimes including weekends, to ensure everyone was safe and everything was running smoothly.

2018 – 2019 – Shop Assistant / Key Holder – Bon Marché

- Whilst at university I worked for a fashion boutique providing friendly, knowledgeable, and efficient service to customers and colleagues.
- This role was up to 40 hours a week which I effectively balanced with my academic studies.
- I took on the additional role of being a key holder which entailed additional responsibilities such as opening and closing the store, banking the money from the previous day, and organising my colleagues' tasks in addition to completing my own.

Software and workplace systems

- 3DSMax
- Maya
- Blender
- Zbrush
- Substance Painter
- Substance Designer
- Photoshop
- Unreal engine 4
- Unreal engine 5
- Unity
- TortoiseSVN
- Redmine
- Youtrack
- Microsoft office

Skills

- Proficient all-round IT skills.
- Knowledgeable on 3D game's pipelines, including both realistic and stylised styles.

- BTEC Level 3 - IT games and interactive systems – 2nd year – Distinction* Distinction*

2008 - 2013 - Brune Park Community School.

5 GCSEs including English and Maths.

Interests and hobbies

Enjoys collecting and playing computer games and watching anime. Avid gym goer and attends 2-3 times a week as well as bouldering twice a week to stay fit and socialise. Loves cooking and baking and always looking to try new recipes. Also enjoys rollerblading, hiking, and creating digital artwork. Have been learning Dutch in my spare time and hope to start learning German sometime soon.

References available upon request.

Achievements / Extracurricular

Game Jams

Participated in multiple game jams to improve brainstorming and teamwork skills and build a network.

Earning 2nd place as the only 1st year team after only 4 months since beginning our studies.

I also took part in a game jam whilst at Playtonic where we took the opportunity to branch out and learn new skills and styles.

University

Achieving multiple “A” grades during my degree.

Setting up a discord server as a place for all the art students to socialise and share information. This also worked as a way for the students and alumni to interact and give advice.

I won an award for most creative art piece in my 3rd year for my final project
