Music, Adaptive Scoring, Sound Design and Integration, Producing, Mixing and Mastering

Proficient with Unity, UE5, Wwise, FMOD Studio and Cubase

Specialization in heavy guitar, synth and atmosphere, and orchestral music

***Chimera Custom XG (Volo Games) - Audio Director/Sound Design and Music**

-Created all of the sound and music, as well as handled all implementation duties. Adaptive music scores were created to handle multiple game states per level. Created hundreds of custom gun sounds, sci-fi effects and environmental effects. Implementation done with FMOD and Unity.

***Tempest Rising (3D Realms) - Sound Design and Music**

-Created several music tracks for use in-game as well as linear cinematic sequences. Created several weapons, artillery and vehicle sounds. Managed dialogue and voice acting. All work implemented with FMOD and Unreal Engine.

***Wrath (3D Realms) - Music**

-Contribute various linear music tracks to the score.

***Un-announced AAA Action FPS (3D Realms) - Music**

-Principal composer for a AAA action FPS, utilizing highly flexible adaptive scoring techniques. Implemented with FMOD and Unreal Engine.

***Hand of Doom (TorpleDook/Dread XP) - Music**

-Created a heavy metal score for the game, linear music tracks.

***Smugglers of Cygnus (Longplay Games) - Sound Design and Music**

-Created various sound effects and music loops for the game.

Thank you for taking time to review my application. I'm a multi-disciplined audio professional specializing in music composition and production, sound design and integration, and mixing and mastering. I have 15 years of experience across multiple mediums and genres. My most recent work includes music and sound design for Chimera Custom XG, Tempest Rising by 3D Realms and an un-announced AAA action FPS, as well as numerous releases from various recording artists.
