PANKAJ RAWAT

3D ARTIST

PROFILE

Motivated and detail-oriented entry-level 3D artist specializing in hard surface prop modeling and PBR texturing. Skilled in creating realistic, high-quality 3D models for a variety of assets, including vehicles, weapons, tools, and other hard surface objects. Proficient in using industry-standard software such as Maya, and 3ds Max for modeling, and Substance Painter and Designer for creating detailed, physically-based rendering (PBR) textures. Adept at ensuring models are optimized for real-time rendering while maintaining visual fidelity. Eager to collaborate with a team and continuously improve technical and creative skills within a dynamic production environment. Strong foundation in understanding lighting, materials, and textures to create visually striking and realistic props.

WORK HISTORY

- Entry-level Freelance 3D Artist with a strong foundation in 3D modeling and design.
- Skilled in 3ds Max, and Zbrush for creating detailed 3D assets.
- Knowledge of texturing, lighting, and rendering for realistic visuals.
- Passionate about learning and growing in the 3D art industry.
- Able to work independently and manage small tasks with deadlines.
- Eager to collaborate on game, animation, or visualization projects.
