LANGUAGES

Spanish – Bilingual
English – B2 | (Trinity College London Grade 9)

SKILLS

Technical problem-solving and optimization expertise

Excellent cross-departmental communication

Proven mentoring and knowledge-sharing capabilities

Easy adaptation and quick learning

TECHNICAL SKILLS

- Unreal Engine 4/5**
- Performance & Optimization Tools (Ex.: Unreal Insights)
 - BP Tools Creation
 - Shaders Creation
 - Environment Tools
 - Level Creation
 - Implementation
- 3ds Max**
- 3D modeling
 - Assets optimization
 - Impostors creation
- Rizom UV**
- Uvs
 - Lightmap Uvs
- Adobe Photoshop**
- Color adjustments
 - Atlas Creation

- Substance Painter/Designer**
- Materials creation
 - Textures Creation
 - Baking

COURSES

Complete Game Optimization for Unreal Engine 5,
Tom Looman 

PROFILE

Technical Artist with 6+ years of AAA experience specializing in performance optimization, environment pipelines, and Unreal Engine 5 advanced features (Nanite, Lumen, Blueprints, HLODs). Passionate about bridging art and engineering to deliver visually compelling yet efficient interactive worlds, including work with optimization pipelines, large-scale environments, and scalable content workflows.

PROFESSIONAL EXPERIENCE

Technical Artist, Hexworks - CIGames 
06/2021 – 06/2024

Lords of the Fallen (2023)

- Creation and implementation of collisions and optimization across 15 levels, achieving improved performance (Unreal Insights, Buffer Visualization, HLODs).
- Developing and managing optimization pipelines for 300+ environment assets, achieving consistent frame rates across all platforms.
- Collaboration with the level art team to compose and dress environments using UE5 tools, like Landscape Tool, Spline Tool, Foliage Tool, Decal System...
- Implementation of UV and lightmaps optimization workflows.
- Supervision and feedback for 5 outsourcing companies with standardized optimization documents.
- Mentored 6 junior artists.

Technical Content Artist, Saber Interactive 
07/2019 – 06/2021

Evil Dead The Game & WWE 2k Battlegrounds

- Optimized environments and collision systems, improving the performance of the game.
- Creation of LODs for environment assets and characters.
- Development of UV layouts and lightmap optimization strategies.
- Creating Environments in EU4 using the Landscape Tool and Foliage Tool among others.

3D Environment Artist, Berlin by Ten
02/2018 – 07/2019

- Development of stylized props and environments for Disembodied, including 3D modeling, sculpting, retopology, UV mapping, and texturing.
- Creation of basic materials in Unreal Engine 4 to enhance visual consistency and immersion.

PROJECTS

Kosmonaut
02/2018
Mobile game developed in UE4 during the Gam JamOn 2018. Winner of five prizes.

EDUCATION

Master Degree in Video Games Art and Visual Design., U-TAD
2016 – 2017

Degree in Audiovisual Creation and New Media, Burgos University (UBU)
2012 – 2016
