

PLATO MANCHI

plato.manchi@gmail.com · www.linkedin.com/in/plato-manchi/ · www.platomanchi.com

C++ programmer with over 7 years of experience working on both proprietary game engines and Unreal Engine with focus on 3C's and adept in cross-team collaborations.

PROFESSIONAL EXPERIENCE

Sharkmob, London, UK

Feb 2024 – Nov 2024

Animation Engineer II

Cancelled fantasy MMO (C++, Unreal Engine 5, Blueprints, Windows)

- Prototyped and iterated locomotion mechanics and gameplay abilities for ranged class.
- Served as the sole C++ programmer for animation/gameplay integration, building core systems that linked animation, design, and combat logic.
- Developed full animation blueprint logic, locomotion systems, and maintained animation montages.
- Created and layered control rigs for procedural animation including turn-in-place, IK, and FK-driven movements.

Creative Assembly, Horsham, UK

Jan 2021 – Jan 2024

Animation Programmer

Hyenas (C++, Unreal Engine, Blueprints, Windows, XBOX, Playstation)

- Implemented locomotion systems in standard and zero-gravity environments across varied weapon types.
- Developed and maintained complex animation blends, IK systems (hands & legs), and animation layers.
- Collaborated with animators, designers, and gameplay engineers to align creative vision with technical feasibility.
- Built internal tools with technical animators to manage large-scale animation sets and physics integration.
- Designed and maintained systems for in-game cosmetics handling for both players and NPC.
- Supported the cinematic team in making trailers and intro videos.

King, Malmo, Sweden

Aug 2018 – Oct 2020

Junior C++ Developer

Bubble Witch 3 Saga, Pet Rescue Saga, Blossom Blast Saga (C++, Lua)

- Developed and maintained multiple core features in C++ in large codebases.
- Contributed to the successful migration of a production application from Lua to a C++ infrastructure, significantly improving system responsiveness and execution efficiency.

RZ2 Games, Goa, India

Jun 2011 – Nov 2014

Game Developer (C++, C#, Java, Cocos2d-x, Unity, Android, iOS)

- Ported games to native Android and iOS platforms and made a racing game using C#.

EDUCATION

University of Central Florida - FIEA, Florida, USA

Aug 2016 - Dec 2017

Master of Science in Interactive Entertainment - Programming Track

Jawaharlal Nehru Technological University, Kakinada, India

Jun 2006 - Aug 2010

Bachelor of Technology in Computer Science and Information Technology

SKILLS

Unreal Engine 5, Animation Blueprints, Control Rig, GAS (Gameplay Ability Systems), Editor Tools/Scripting, C++ 14/17/20, ISPC, Multithreading, Perforce/Git, Jira, Cross-functional collaboration.

I create youtube videos on Unreal Engine as a hobby - <https://www.youtube.com/@platomanchi>
