PERSONAL PROFILE

First-Class Graduate of Bath Spa University for Game Development. I am a programmer who specializes in C# and the Unity Engine, though I also have experience in C++. Throughout my education I have developed many unique games, using my strong programming skills in both individual and group game projects. I am currently looking for a graduate level job in game programming and am excited to get started.

EDUCATION

BATH SPA UNIVERSITY – OCT 2022 – JUN 2025

Games Development – BA (Hons)

Graduated from Bath Spa University with a First-class Degree (July 2025)

Participated in the Japanese Bit Summit Game Jam as one of the first UK teams to do so.

Served as a Project Leader and programmer in our final semester game project.

Modules include 2 coding courses w/ object orientated programming, game studio practice and indie game design.

Received the 'Creative Excellence Award' from my subject leader.

CHICHESTER COLLEGE – 2020 – 2022

A Levels

- Maths (B)
- Further Maths (C)
- Biology (B)
- Computer science (B)

SKILLS

TECHNICAL SKILLS

- Programming Languages: C# and C++
- Software: Unity, Visual Studio, Github

TEAMWORK AND COMMUNICATION –

I developed these skills through multiple university projects where working as a team was essential to completing our game. I would always update my team on the progress I was making and ask for clarification on the work of others if needed.

LEADERSHIP AND ORGANISATION –

In my final semester, I was the team leader for our large game project. I kept myself and our team organized by holding weekly progress meetings, checking in on each of our team members, and making sure everyone had clear weekly sprints. This allowed us to stay on track and receive a High First grade.

PROBLEM SOLVING –

I have utilized this skill throughout my game development course, solving problems across design, code and implementation in every game I have developed. I can focus and dedicate myself to tough programming challenges I face during game development, always being able to find a solution.

EXPERIENCE

Oxfam GB – Volunteering (Summer 2023)

Riverside South Downs Cafe – Kitchen Porter (Summer 2024)

PERSONAL INTERESTS

MAKING/DESIGNING VIDEO GAMES

SWIMMING
