2nd place at

Gamergy 2021 Indie Booth for Fragments of Child by Creek Games.

PlayStation Talents 2018 Best Game for

Kids Award for Childhood by Kalpa Games.

Extraordinary End of Studies Prize (course 2014-2015).

About me

Unreal programmer mainly focused in **Unreal Engine 5** with 5 years of experience working side-by-side with designers to implement creative mechanics. I aim to work with a strong team to achieve the most polished gamefeel, contributing to it with my own experience and passion for videogames.

Work experience

2025-present **UI Programmer at Epictellers**

Barcelona, Barcelona

UE5 UI Programmer in an unannounced multiplayer extraction shooter Work for Hire project with CommonUI where I introduced MVVM into the project. I also assist with **Gameplay Abilities** development with **GAS**.

2022-2025 **Gameplay Programmer at Tequila Works**

Madrid, Madrid

UE5 Gameplay Programmer in two unannounced projects. Both with a heavy use of **GAS**. One was a third-person adventure in which I developed systemic mechanics and damage systems using GAS. The other a third-person adventure-combat online game in which I was focused on UI and progression system.

2022-2022 **Gameplay Programmer at The Breach Studios**

Barcelona, Catalunya

Gameplay and UI Programmer with **UE5** in a multiplayer MOBA shooter.

2022-2022 **Gameplay Programmer at Blackmouth Games**

Madrid, Madrid

Gameplay and UI Programmer with **UE4** in a multiplayer battle royale shooter.

2020-2022 **UE4 Programmer at Creek Games**

Madrid, Madrid

Gameplay programmer with UE4 in 3D adventure game. A third-person adventure platformer in which I develop several features and systems such as player abilities, UI, SFX and cinematics systems.

Education

2017-2018 **Master's degree in game design and development** Complutense University of Madrid

1-year course in which we developed a game demo called Childhood as our final year project.

2010-2015 **University Degree in Computer Science**

University of Valladolid

5-years university degree in Computer Science.
