

Christian Amendola

3D Artist

Cirencester, Gloucestershire, England | christiancarloamendola@hotmail.com

Artstation – [chris_mendo.artstation.com](https://www.artstation.com/chris_mendo) | LinkedIn – www.linkedin.com/in/christian-amendola-mendo

Accomplished 3D Artist with over five years of professional experience creating high-quality, optimised, game-ready assets for mobile and later console/pc platforms. Experienced in leading art direction, maintaining cohesive style guides, and mentoring junior artists. Proficient in Unity and Unreal Engine, and industry-standard tools including Maya, ZBrush, Substance Suite, and Photoshop. Contributions include multiple released mobile game titles like Idle Army Base: Tycoon Game, as well as freelance and studio work for both Unmasked Truths: Shattered Dreams and an unannounced AAA title globally recognised IP.

Professional Experience

Outright Games

Freelance 3D Artist - (Jul 2024 – Nov 2025)

- **Led the creation of 3D assets** for an unannounced AAA title based on a **world-famous children's IP**, including **environments, props and vehicles**.
- **Worked closely with Art Lead and other artists** to ensure the assets are aligned with the game's visual style.
- **Optimised 3D models, textures and lighting setups** for **performance efficiency** on target platforms, balancing visual quality and frame rate.

SuperPROTEIN Studios

Part-Time Senior 3D Environment Artist - (Jun 2025 – Oct 2025)

- **Interpret and translate** 2D concept art from the design team **into high-quality, game-ready 3D assets optimised for real-time performance**.
- Apply **high-quality textures** to surfaces to achieve **realistic or stylised visuals**.
- **Integrate 3D assets into Unreal Engine**, ensuring they work seamlessly within the **technical constraints** of the platform.

Neon Play

Senior 3D Artist - (Jun 2023 – Jun 2024)

Mid-Level 3D Artist - (Jul 2021 – Jun 2023)

Junior 3D Artist - (Feb 2020 - Jul 2021)

- **Directed art style and visual identity** for two mobile games: **Marine Force: Heroes of War and Rivals Duel**.
- Worked closely with the **Chief Game Director, Designers and Producers** to ensure the artistic vision met production and design requirements.
- Designed and implemented **character design systems** and streamlined **modelling, rigging and animation workflows**.
- Authored and maintained **art style guides** to ensure consistency across teams and pipelines.
- **Led training sessions and mentorship initiatives** to upskill junior artists and improve team cohesion.
- Produced **high-quality 3D assets** ranging from **environments, characters and props**.
- Worked primarily in **Unity** to integrate 3D assets, **adjust lighting and test shaders within the engine**.
- Maintained asset control with tools such as **Sourcetree**.
- **Collaborated in team meetings** within the company and showcased **clear communication skills**.

Education

University of Worcester – Game Art BA (Hons), 1st class

2016 – 2019

For my final-year project, I produced an interactive environment that was displayed at the degree show. For this, I was awarded the **Worcester County Council and Severn Arts Design Award**.

Technical

Maya | ZBrush | Unity | Unreal Engine | Sourcetree | Substance Painter | Substance Designer | Substance Sampler | Photoshop | Marmoset Toolbag | Blender | Speedtree | Anchorpoint
