

IGOR BATURIN

3D Artist

[Artstation](#) | [LinkedIn](#) | [E-Mail](#)

SKILLS

- *Hard Surface and Organic modeling*
- *High poly and Low poly pipeline*
- *Props & Weapons Concept Design*
- *Face-Weighted Normals pipeline (midpoly)*
- *Modular Environment Workflow*
- Layered Materials and RGB Mask Texturing
- UV Unwrapping & Baking
- PBR Texturing

TOOLS

ZBrush | Maya | 3ds Max | Modo |
Mol3D | Quxel Suite (nDO painter) |
Substance 3D Painter | Rizom UV | UV
Layout | Marmoset Toolbag | Adobe
Photoshop | Unreal Engine | Jira |
Assembla | Perforce | SVN | Asana |
MS Azure DevOps

LANGUAGE

English – B1
Russian – Native

SUMMARY

3D Artist with 4 years of experience working on PC and Mobile projects. Comfortable with weapons, vehicles, props, modular kits and enjoy concept design for SCI-FI projects. Skilled in realistic and semi-realistic styles.

EXPERIENCE

METAVEVERSE GAMES STUDIO [MAY 2024 - PRESENT]

Angelic

Hard Surface Artist / Concept Artist

- Concept Design of Props
- Creation of Hard Surface and Organic assets from concepts following the traditional high to low-poly pipeline and Face-Weighted Normals workflow
- PBR Texturing using unique texturing and Layered Material workflow with RGB masks for Unreal Engine
- Trim Sheets and Decals creation for large assets
- Implement assets in engine with materials setup and creation

OUTSOURCE HARD SURFACE ARTIST [NOV 2022 – DEC 2024]

Clients: Saber Interactive, ARTSTORM, Corbox Studio, MY.GAMES and etc

Hard Surface Artist

- Creation of military and civilian vehicles from photo references with strong eye on accuracy and details
- Creation of weapons, props, modular environment assets, trim sheets following the traditional high to low-poly pipeline and Face-Weighted Normals (Mid-Poly) workflow
- PBR Texturing (Specular/Gloss and Metal/Roughness)
- LODs creation
- Preparing for import into the game engine

SOCIAL QUANTUM [AUG 2023 - MAY 2024]

Lost Future

Weapon Artist

- Full-cycle asset creation according to pipeline from concepts and references
- PBR Texturing (Metal/Rough)
- LOD creation
- Preparing for import into the game engine

SPERASOFT, A KEYWORDS STUDIO [MAR 2022 - NOV2023]

Age of Empires IV

Junior 3D Artist II

- Full-cycle asset creation according to pipeline
 - Mid-poly (face weighted normals) pipeline
- UV Mapping (Trim sheets, tiling maps)
- PBR Texturing and hue mask creation (Custom shaders)
- In-Engine import and setting up

Mortal Kombat Mobile

Junior 3D Artist I

- Full-cycle asset creation according to pipeline
- PBR Texturing (Metal/Rough)
