IT'S-A-MACIA

Game Designer with 5+ years crafting casual/mobile experiences, now focused on AI-powered design innovation.

Proven track record shipping 20+ games while optimizing production workflows. Passionate about leveraging emerging technologies to enhance creativity without sacrificing quality.

Always pursuing to design and develop new memorable experiences.

Player since I remember.
Resolute by nature.

When in a team, I always intend to transmit the same positive energy and passion that I have. I love science, working in the unknown and keep challenging myself.

Based in Mallorca, Spain.

EXPERIENCE

Senior Game Designer - Xaloc Studios

2021 - 2025 | Mallorca

- Senior Game and Level Designer: Care Bears: Unlock the Magic minigame-collection game.
- Main Designer of a client-contracted MMO/Metaverse, Pavia, in its initial stage.
- Worked as Game Designer in a cancelled Inhouse Social Mobile Game.
- Main Game Designer of contracted games for worldwide clients.
 - L.O.L. Surprise! B.B.s Born To Travel: Main Designer and 3D, Top-down main Level Designer (+40 levels).
 - Fantasy Friends 2: Design Support and Balancing.
- Created detailed game documents and/or mechanics/prototypes/tools.
- QA and bugfixing prior to launch to ensure a professional-tier product.

Level Designer - Drone Racing League

2016-2017 | Remote Position

- Designed and built 15+ 3D levels in Unity, focusing on pacing, readability and difficulty curves for a mid-core audience.

Lead Game Designer - Kitmaker Entertainment

2013 - 2014 | Mallorca

- Designed and drove vision of more than 20 successfully launched games for smartphones and java phones.
- Parallel-development team management (5 simultaneously).
- Managing different teams for testing and bugfixing.

TECHNICAL CONTRIBUTIONS

TECHNICAL & PROCESS IMPROVEMENTS

- Designed custom Unity tools for level building in a StarFox prototype.
- Created documentation frameworks adopted across various projects.
- Implemented quality assurance processes that caught 50% more bugs pre-launch

PERSONAL PROJECTS

Personal Unity Games / Prototypes

- Developed several games in Unity to master my development and coding skills, including experience with Vibecoding and using AI tools. Play them in [my itch.io!](#)

AWARDS / GAME JAMS

- **Popular Vote Award (2022)** - BungeeClimbing
- **Rising Stars Award (2019)** - NullSpace
- **Best Game Award (2015)** - Exitium

EDUCATION

- 2011 Level 5 BTCE Higher National Diploma, Game Design and Development Engineering.
University of Wolverhampton, UK
- 2012 Videogames Design and Development Degree
ESNE (UDIT) - Universidad Camilo José Cela, Madrid
- 2014 Master in Videogames Creation, by Dani Sánchez-Crespo.
Universitat Pompeu Fabra, Barcelona

SKILL TREE

Engines:

Design + Development:

- Prototyping in Figma and similar
- Prototyping in-engine
- Game mechanics and systems
- Gameplay Design
- Level Design + Dressing
- VFX & Sound design
- Localization
- Testing and bugfixing

Programming Languages:

- C# (Unity scripting, gameplay systems)
- Blueprints (Unreal visual scripting)
- Python (basic AI automation tools)
- JavaScript (basic web-based prototypes)

2D Art + 3D Modelling

2D + 3D Animation

Multimedia Processing

- Image, Video, Sound Editing
