WORK EXPERIENCE

3D Artist L3D Studio

04/2023 - 07/2023

Ukraine

Achievements/Tasks

- Created and optimized 3D models, including LOD assets, creating collision meshes
- Imported assets into the game engine and configured collision meshes

Freelance 3D Artist Self-employed

12/2024 - Present

Achievements/Tasks

- Designed and developed 3D game-ready models of props and weapons

Weapon Artist Veilbreaker Studios

11/2025 - Present

Achievements/Tasks

- Creating WWII-style weapons for ARMA Reforger mods, following a complete development pipeline — from modeling to in-game integration.

EDUCATION

Computer Graphics IT STEP Computer Academy

10/2020 - 10/2022

Ukraine, Chernivtsi

Computer Science Yuriy Fedkovych Chernivtsi National University

09/2021 - 07/2025

Ukraine, Chernivtsi

3D Texturing Varto School

05/2025 - 06/2025

Creating Weapons following all pipeline Mykhailyk Art School

10/2025 - 12/2025

SKILLS

Plasticity Maya Blender Zbrush RizomUV

Marmoset Toolbag Substance Painter

Substance Designer Unreal Engine SpeedTree

Photoshop Cycle

PERSONAL PROJECTS

Interdynamic MP-9 SMG
(<https://www.artstation.com/artwork/lG2eKo>)

- Practicing 3D modeling in Plasticity.
- Preparing the asset for game-ready use with optimized topology in Blender and UVs.
- Implementing a PBR texturing pipeline in Substance Painter to create realistic materials and surface details.
- Rendering and showcasing progress in Blender (Cycle).

Mosin-Nagant Rifle
(<https://www.artstation.com/artwork/3EGzaE>)

- Practicing 3D modeling in Plasticity and sculpting in Zbrush.
- Preparing the asset for game-ready use with optimized topology and UVs.
- Implementing a PBR texturing pipeline in Substance Painter to create realistic materials and surface details.
- Rendering and showcasing progress in Marmoset Toolbag.
