- LinkedIn: linkedin.com/in/idelreyperez

SUMMARY

3D Environment & Assets Artist delivering clean, production-ready assets for animation and real-time pipelines. Skilled in hard-surface and organic modeling, PBR texturing, and environment workflows using Maya, ZBrush, Substance and Unreal Engine. Known for strong topology, fast iteration, and building assets that integrate seamlessly into VFX, CG animation, and game production environments.

PROFESSIONAL EXPERIENCE

3D Artist | Dec 2025 - Ongoing
Leartes Studios / Remote

- Working as an environment artist outsourcing assets, textures and renders for a whole upcoming marketplace pack for UE.

CG Modeler | Jan 2024 - Mar 2025
Atomic Cartoons / Vancouver, Canada

- Produced production-ready 3D assets and environments for two CG animated series within a fast-paced episodic pipeline ensuring clean topology ensuring low revisions.
- Iron Man and his awesome friends.
- Lego Disney Princess: Villains Unite.

3D DMP | Sep 2022 - Nov 2022
Framestore / Montreal, Canada

- Building multi-layer environments using combined modeling, texture projection, and matte-painting workflows, accelerating environment iteration by creating reusable assets and projections templates.
- 3DDMP Launchpad Pro Program focusing on pipeline and environments, general skill set as compositing, projecting, Matte Painting, modeling and texturing.

3D Modeler and Texture Artist | Sep 2023 - Feb 2024
Little Grim Entertainment / Remote

- Volunteering for an indie game modeling low/high poly assets, environments and stylized textures, implementing in UE.

EDUCATION

Think Tank Training Centre - Online / Feb 2021 - May 2022
CG Asset Creation for Film or games Diploma Program
Hard surface and organic modeling, texturing, shading, rendering and compositing.

ADDITIONAL EXPERIENCE

Prior experience in hospitality roles involving team leadership, training staff, and operating in fast-paced environments and self-employed in a picture frame workshop developing self-solving skills, organization, customer service and meticulous attention to detail. While developing these two different paths I worked in a random different jobs where I developed good interpersonal skills improving and adapting to different scenarios.

SKILLS

Modeling & Sculpting: Maya, ZBrush, Blender, Mudbox
Texturing & Materials: Substance Painter, Mari, Photoshop, Designer
Rendering & LookDev: Arnold, V-Ray, Unreal Engine
Compositing: Nuke, After Effects
Core Skills: Hard-surface modeling, organic modeling, retopology, UV unwrapping, PBR texturing, modular environments, LODs, optimization.
