WORK EXPERIENCE

2024 - Present

VIS DEV ARTIST - ILLUSTRATOR

I'm currently working as a visual development artist and illustrator for pitches, pre productions and publishing projects.

2022 - 2024

CHARACTER CONCEPT ARTIST - VIS DEV ARTIST

During my time at Jellyfish Pictures I've been involved as a vis dev artist in several pitch docs and bibles. I've had the chance to help as a concept artist for characters and props on the Children's & Family Emmy Awards nominated show "Wolf King" and I've also worked as a character concept artist for Milkshake's pre-school show "Stan & Gran".

2021 - 2023

ILLUSTRATOR

I've worked as a freelance illustrator for the first three books of the series "I Gialli di Geronimo Stilton" creating full page and spot illustrations.

2015 - 2021

ILLUSTRATOR - CHARACTER ARTIST

In 2020 I've illustrated the Official Lacuna Coil board game "Horns Up" published by Labmasu and previously designed several characters for Blood Bowl miniatures, including concepts for other projects. I've also illustrated the board game "Fox On The Run" published by Beezarre Games.

2015 - 2022

ILLUSTRATOR

I've worked on several children's books as a freelance illustrator.

About me

I have a strong knowledge of anatomy and composition, colour theory, shape language, silhouette, form and design and the ability to deliver impactful key art. I'm comfortable working within a defined art style, while also exploring and shaping new visual ideas when needed. I have strong creative problem-solving and I'm able to handle direction and feedback with maturity and speed. I'm also familiar with both 2D-to-3D pipelines and how concept art translates into production. Highly self-motivated, I have strong communication skills, and a collaborative mindset but also the ability to handle tasks individually.
