PROFILE

6+ years in game design. **10+ titles shipped** across mobile, console (Switch, PS4/5, Xbox) and PC. End-to-end ownership of IP-based games for globally licensed franchises (**L.O.L. Surprise!**, **Care Bears**): gameplay mechanics, level design, audio, **multi-language localization**, QA and playtesting — concept to Gold Master. Designed, prototyped and polished **Core loops**, **systems and progression**, **UX and UI**, **localization tools**, and **55+ levels designed and built**. Based in Mallorca, Spain.

SKILLS

Gameplay Mechanics & Systems Design | Level Design | GDD & Documentation | Prototyping | UX | UI | Player Experience | Difficulty Curves & Pacing | Audio Design | Localization | QA & Playtesting | Cross-Functional Leadership | IP-Based / Casual / Mobile | Agile / Scrum

EXPERIENCE

• Main Game Designer

Xaloc Studios (50-person studio) 2021 - 2025

- **[L.O.L. Surprise! B.B.s Born To Travel](#)** (Switch, PS4/5, Xbox, PC) - **End-to-end ownership: 40+ 3D levels, gameplay mechanics, progression, multiplayer**, narrative, difficulty curves, collectible systems, audio direction, **EFIGS + 5 more languages localization**, QA. Shipped on schedule for a **globally licensed IP**.
- **[Care Bears: Unlock the Magic](#)** (Switch, PS4/5, Xbox, PC) - **End-to-end ownership: 7 minigame mechanics, documentation**, audio design, **level design and balancing**, **14 languages localization**, all playtesting cycles, **QA**. Delivered on time, **every client milestone met** across 12+ month production.
- **[Pavia](#)** (client-contracted PC F2P MMO) - Defined **core loop**, progression, and **social systems** from scratch.
- **[Fantasy Friends 2](#)** (Switch, PS4, Xbox, PC) - **Final QA+LQA, EFIGS localization** and improved play-session flow.
- Created **studio-wide GDD standards** (feature specs, **wireframes**, **flowcharts**). Built **structured QA** workflows and **in-engine localization tools** adopted across all projects, **reducing post-release patches and developing time across 3 titles**.

• Lecturer - 3D Design, Animation & Audiovisual Editing

EDIB & CEF (vocational training centers) 2017 - 2019

- Taught **3D design, 3D animation, and audiovisual editing** at two vocational training centers. **Developed course curricula and materials** while maintaining active game design and development practice.

• Level Designer

[Drone Racing League](#) Remote, 2017 - 2018

- **15+ 3D racing levels** in Unity - **pacing, readability, progressive difficulty**. Built custom editor tools cutting level production time. **Zero missed sprint deadlines** across full **remote** collaboration.

• IT Manager & Technical Trainer

Gomila Gost (50 employees) 2016 - 2017

- **Sole IT lead**: managed all hardware/software infrastructure, **trained ~50 employees**, and **designed operational processes** and internal documentation from scratch.

• Freelance Game Designer & Developer 2017 - 2026

- Sole designer-developer: shipped original Unity (C#) games from concept to public release on [Itch.io](#).

• Game Designer (sole design authority)

[Kitmaker Entertainment](#) (30-person studio) 2013 - 2014

- **Multiple mobile games shipped, zero cancellations**. Only designer across **5 concurrent teams** - owned all design decisions, core loops, mechanics, and progression systems for every title.

TOOLS

Engines: Unity, Unreal **Code:** C#, Blueprints **Design:** Figma, Miro **Production:** Jira, Confluence, Notion, Trello **Art:** 2D/3D Art, Animation, VFX, Sound Design **Other:** Localization pipelines, bug tracking, playtesting, spreadsheets
