3D ANIMATION & RIGGING

ABOUT ME

Passionate about bringing 3D models to life through rigging and animation. Excited to apply my skills to new projects and opportunities.

WORK EXPERIENCE

SELENE GAMES

Animator

Contributing with animations to the development of Fatal: Unleashed Darkness, a video game created by Selene Games in a collaborative work environment.

PEN CORP STUDIOS

Rigger & Animator

- Developed non-destructive custom control rigs that preserve the original skeleton hierarchy, ensuring compatibility with existing animations sourced from other software or already in the engine.
- Hand key animations for in-game implementation.
- Ensuring animation compatibility with the game engine and maintaining visual consistency across assets.
- Collaboration with the programming team to resolve technical issues during the integration process and adjust rigs or animations when needed.

MORI

Motion capture retargeting artist

Retargeted and polished motion capture animations using Blender, ensuring clean, natural movement for final use.
