

David Guersi Bernad – C#/C++ Developer

Mail: davidguersi@hotmail.com

Phone: +34 639 74 00 52

LinkedIn: <https://www.linkedin.com/in/david-guersi-a4b76b306/>

Webpage: <https://linktr.ee/davidguersi>

Languages: English / Spanish / Italian

Developer specializing in 2D, 3D, VR, and mobile application development. Experienced in programming patterns, performance optimization, and scalable architecture. I'm an avid learner and a good companion.

Experience

Reckless Monster – Unreal Developer Collaboration

January 2026 – Present

- Working on a non-disclosed project.
- Helping other students improve their technical level.
- Integrating features into a top-down casual game.

Luna Luna Studios – Unity Lead Developer

December 2025 – February 2026

- Developed a fully narrative-driven game with integrated minigames and story progression.
- Defined and implemented code architecture and programming patterns.
- Integrated art assets and 3D models while collaborating closely with other departments.
- Performed ongoing QA and debugging of narrative systems and minigames.

Leti Arts – Mobile Developer

September 2024 – June 2025

- Developed multiplayer systems for mobile games.
- Implemented optimization techniques to improve performance.
- Worked extensively with mobile development workflows. (*Note: "Sweave" removed — see explanation below.*)
- Solved complex technical challenges related to mobile gaming.
- Used Jira to track development tasks and bug reports within a multidisciplinary team.

Nómada Omnimation – VR Developer

May 2023 – January 2024

- Developed VR experiences using Unity for PICO headsets.
- Designed and implemented advanced VR mechanics.
- Optimized rendering performance using Occlusion Culling and Light Baking.
- Debugged and resolved technical issues, ensuring a smooth user experience.
- Collaborated with medical professionals in multidisciplinary environments.

MBA Gran Canaria – Production Assistant / Graphic Designer

- Overlay development.
 - Broadcast event production.
 - Television team management.
-

Game Jams

GC Game Jam 2023 – Best Team GC
Game Jam 2023.2 – Best Team
Mermelada Game Jam – Ranked 80/240 (Best Mechanic Award)
GameDev.tv Jam
GC Game Jam 2024 – Best Original Game
GC Game Jam 2025

Education

Master's Degree in Video Game and VR Programming with Unity – Tokyo School
October 2022 – June 2024

Additional Courses:

- Unity Shader Graph: Create Procedural Shaders & Dynamic FX
 - Unity Turn-Based Strategy: Code Your Own Strategy Game
 - Unity Intro to DOTS: Data-Oriented Tech Stack (DOTS) & ECS
 - Unity Programming Design Patterns: Learn Programming Best Practices
 - Unity UI Toolkit: Build and Deploy Editor Scripts in Unity
 - Complete Unity 2D Developer: Create Your Own 2D Games Using Unity C#
 - Unity Mobile C# Developer: Create and Deploy Games for Android and iOS
 - Complete Unity 3D Developer: Design & Develop 3D Unity Games Using C#
 - Lighting and Composition for Animation and Film
 - Unreal Engine Blueprints
-

Technical Skills

Primary Tools:

Unity, C#, C++, Git, Shader Graph, DOTS, Unreal Engine, Illustrator, Photoshop, Blender, Maya, Affinity Photo, Nuke, Jira
