

Edgar Provana Martínez

(+44) 7392 517506 | edgar.provana@gmail.com | artstation.com/ndredg | Greater London Area, UK

Passionate **3D Character Artist** with 5+ years of experience sculpting and modeling high-quality characters, developing textures and materials, and adapting to new industry techniques. Dedicated to improving performance with good communication and understanding of surrounding team's work.

Skills

- High-poly to low-poly character and asset modeling and optimization
- Understanding of anatomy, organic sculpting and hard surface modeling
- Cartoon, stylized, and realistic PBR or unlit texturing
- Game engine proficiency and game-ready character asset implementation
- Unreal Engine node-based shader and blueprint creation
- Strong communication, self time management, and teamwork skills
- Committed to detail and effective feedback integration

Work Experience

3D Character Artist, Astral Clocktower Studios (Remote)

Shipped title: Kristala - PC, PS5, XBOX Series (April 23, 2026)

Mar 2022 - May 2026

- Modeled and textured 15+ fully modular armor sets for humanoid characters, as well as optimized and polished existing ones.
- Implemented a shell-based fur technique into Unreal Engine.
- Cross-functional collaboration with the animation team to match their topology needs for optimal rigging and skinning.
- Integrated characters, cloth physics, and collisions to applicable sets.
- Created varied NPC characters with unique shape and form adding and improving on initial concept designs from the art department.

3D Art Personal Tutor (Freelance)

Sep 2020 - Jun 2023

- Taught modeling, texturing, and sculpting techniques for 3D art students on one-on-one tutoring lessons.
- Offered detailed feedback on course projects to improve outputs.

Degree Final Project, FX Animation Barcelona (On-site)

Jun 2019 - Jan 2020

- Worked in a duo to develop a fully playable game based on a UE4 mechanics template, swapping all graphic elements with our own.
- Involved in character and environment modeling and texturing, lighting and VFX systems, HUD and shader creation, rigging, skinning, and vegetation.

Education

Hard Surface Modeling for Characters

CG Masters Academy

Apr 2021 - Jun 2021

- Intensive production-level course focused on hard surface modeling techniques for character design led by Ben Erdt and tutored by Arno Schmitz (Lead Character Artist at Guerrilla Games).

Specialized Degree in 3D Art and Design for Video Games

FX Animation Barcelona 3D & Film School

Oct 2016 - Jun 2019

- 3 year program focused on teaching the graphic aspects of video game development, as well as industry standard workflows and software.

Additional Information

Software Proficiency

- 3D Studio MAX
- Autodesk Maya
- Zbrush
- Unreal Engine
- TopoGun
- Substance Painter
- Adobe Photoshop
- Marvelous Designer
- Unity 3D

Languages

- English (Full working proficiency)
- Spanish (Native)
- Italian (Native)
- Catalan (Native)
- Japanese (Basic)

Project Participation

Mundos Digitales - 3D Artist

- Hard Surface Vehicle Modelling for a shortfilm production led by Mundos Digitales, a spanish CG and videogame convention.

VR Degree Project - 3D Character Artist

- Class project on a mod for the Epic Games VR videogame Robo Recall.
- Added 2 new levels in a completely different artistic direction.
- Modeled and skinned a variant skin for 2 existing enemy types.
- Identified and integrated a different set of meshes for an existing dismemberment system.
